SHALL WE AID THE GOLD TRUST?

The gold men say all that is necessary to end the silver agitation and settle the silver question for a generation at least is to defeat Senator Stewart for re-election to the Senate. They attribute all their recent troubles to his persistent efforts to right the wrong of 1873 by the passage of a free coinage bill. They look upon him as the arch-enemy of the gold trust, one who cannot be silenced by cajolery nor deceived by sophistry, the head and front of the silver movement in Congress. To defeat him they can afford to spend almost as much as it cost them to demonize silver. A purchased press and hired emissaries are doing all that their devilish ingenuity can devise to attain this result. Newspapers such as the Salt Lake Tribune and the Virginia Enterprise resort to the grossest misrepresentations to create prejudices against him. Though it is known to almost every man, woman and child in Nevada that during his present term, that is for the last five years, Senator Stewart has waived himself of every opportunity, and in fact created opportunities, to keep the silver question before Congress, he is accused by the Wall Street hirelings of being responsible for the present low price of silver. In Carson the Mint brigade and the Capital brigade, the one paid by indirect taxation and the other by direct taxation of the people, are united against him, though were it not for his efforts the mint to-day would doubtless be closed as it was some years ago by John Sherman and later by Grover Cleveland. Though much of Carson's prosperity is due to the coinage of silver, its political strikers have nominated a ticket which is pledged against the re-election of the acknowledged champion of recoinetization, the man who succeeded in getting a free coinage bill through the Senate, and adopted resolutions indorsing the acts of a gold bug administration. In Virginia City, whose prosperity, whose very existence, in fact, depends upon silver mining, men claiming to be friends of silver and a newspaper patronized by silver men but controlled by Wall street, are waging war against Senator Stewart because he advocates free coinage to day as a Republican State Convention did in that city on the last day of last April. In this county a coterie of spoilsmen, into whose calculations the general prosperity of the State does not enter, are conspiring to defeat the Senator, nominally in the interest of an individual who has not the courage to say in Nevada what he is reported to have said elsewhere, that the free coinage of silver is a great question of principle, more important than the success of any political party.

Shall the bona fide residents of Nevada, the men who have endeavored to build up the State and who have to bear the expense of maintaining its government, the miners and the farmers who feel the depression caused by legislation which reduced silver to a commodity and permits London brokers to fix its price, lend their aid to the emissaries of the gold trust and enable them to carry out their nefarious designs by defeating Stewart and the nominees of the Silver party?

AN EXCELLENT TICKET.

The Executive Committee of the various Silver Leagues in Humboldt county announce C. A. La Grave of Winnemucca as their unanimous choice for Senator and Wm. Weighel of Paradise and J. H. Thies of Lovelock as their unanimous choice for Assemblymen, subject to the decision of the Silver party at the polls. Mr. La Grave as Senator and Mr. Weighel as Assemblyman have heretofore served Humboldt well and faithfully in the Legislature. Mr. Thies has been Commissioner of Humboldt county. He is a prosperous farmer, and like Mr. La Grave and Mr. Weighel, a representative man. The Leagues possibly could have done as well by selecting other persons; they certainly could not have done much better.

Messrs. La Grave, Weighel and Thies are for Stewart for United States Senator until the last day in the evening, as Humboldt are true silver men.

The Silver Plume, Colorado, Standard says: "Trout are plentiful, but suckers are getting scarce, so the politicians who are trying to make the people believe that Harrison is friendly to silver will find out to their sorrow."

CHARGED WITH TREASON.

Governor Penoyer Speaks in Favor of the Third Party.

EVANS AND SONTAG HEARD FROM

Sir Francis Wins the Matron Stakes at Morris Park—A Raging Prairie Fire—H. B. Wall Released.

Governor Penoyer Condemns Harrison and Cleveland.

ROSEBURG, Or., October 1.—About 5,000 people assembled this afternoon to hear Governor Penoyer, who delivered an address on the political issues of the present campaign. The Governor's address was listened to attentively. He roundly denounced the course of both the Democratic and Republican parties, saying in part: "I shall speak to-day in defense of the self-same measures I have heretofore advocated upon all occasions. I shall defend the doctrine, as heretofore, that the bulk of Federal taxation should be levied upon wealth rather than upon the labor and the industries of the country; that there should be a free and equal coinage of both gold and silver money; that both should be full legal tender and that paper money required by business interests should be issued direct by the Government rather than by private banking associations, which, like gold and silver, should be legal tender. It is true, however, that in advocating these measures now I find myself outside of the political organization to which I formerly belonged, but this is neither my fault nor my misfortune; it is the fault, if not the misfortune, of the Democratic party, which, having abandoned its principal, now ought by right to abandon its name. The great political party has at last proved recreant to all its traditions and forewearing its fealty to the cause of the people has knelt in blind idolatrous devotion to the shrine of the man whose sole distinguishing character is his stubborn subservience to the demands of monometallism. Careful investigation, however, discloses the fact that this devotion is really not to him, as he has neither personal qualities, intellectual endowments nor political sagacity to win the homage. The real reason of his potency is the fact that his candidacy is demanded by the money power of the Chicago Convention and has turned its back upon all traditions and made a most profound appeal to the great Gods, set up by devotees of monometallism and banks of rag money. The nomination of Harrison and Cleveland, of like policy on leading questions, by opposing political parties is quite an anomaly in the political world, but fortunately for the country a new party has entered the political arena in antagonism to both the old parties. Instead of raising the bulk of national revenue by tariff taxation, which falls with unjust and unequal weight upon the labor and the industries of the country, it would transfer the bulk of burden by income tax to the wealth of the nation, where it justly belongs. Only a just standard of taxation is the one which compels a man to pay according to his wealth."

Matron Stakes Won by Sir Francis.

MORRIS PARK, October 1.—The rich Matron stakes were decided this afternoon before fifteen thousand lovers of race horses. The weather was perfect, and a strong wind was blowing down the straight away and made a lightning fast track. There were seventeen starters for the Matron stakes, Miss Maude and Sir Francis being first and second choice respectively. Reboeca headed the bunch half way down the hill and looked a sure winner at the sixteenth from the finish. Suddenly Garrison on Sir Francis came out of the bunch with a rush, followed closely by Miss Maude. Reboeca made a final effort, but her driver was no match for his opponents, Sir Francis winning by a head from Miss Maude. Time, 1:10. The stakes were worth \$42,000.

Still After Evans and Sontag.

STOCKTON, October 1.—The Newman Tribune of to-day says of Evans and Sontag: The notorious murderers and train robbers made their way into the Coast Range on Thursday. They passed the Howard ranch on Quinto Creek at 3 o'clock, and were recognized by Alexander Bain, Frank Bailey and Charles Neff. All of these are truthful and trustworthy gentlemen and are well acquainted with the robbers, and say there is not a shadow of a doubt of their being the genuine Evans and Sontag. As soon as possible the three men, all of whom are expert horsemen and dead shots with Winchester rifles, mounted horses and started in hot pursuit of the bandits.

Peck's Case Before Judge Edwards.

BURTON, N. Y., October 1.—The case of Commissioner Peck came up before Judge Edwards in Chambers to-day and was argued at great length in favor of granting a mandamus, compelling the Commissioner to show authority for the late report on labor statistics. Judge Edwards reserved his decision.

Charged With Treason

PITTSBURG, Pa., October 1.—The issuance of warrants against the Homestead strike leaders on a charge of treason, at the instance of Chief Justice Paxson, yesterday, caused a decided sensation, not only among the strikers but also among the sympathizers here and at Homestead.

This afternoon an informal discussion was held by Chief Justice Paxson and attorneys for both sides. Justice Paxson decided that the accused should give bail of \$10,000 each. Up to a late hour none of the defendants now in jail had secured the necessary bond. Attorney Knox said the reason the cases were begun in the Supreme Court was because it has always been the practice in this and other countries to begin suits for treason in the highest courts. This was done in view of the gravity of the offense. The highest executive authority had been resisted, and it is proper that the highest judicial authority in the State should first take cognizance of the offense. The strikers at Carnegie's city mills and friends of their cause are greatly exercised to-day over the report of the unexpected movement by the Carnegie firm, The Advisory Board, it is said, is to be held on charges of conspiracy, treason and as many other bills as can be entered against it. On Monday or Tuesday of next week warrants will be served on members of the board and arrests will be made immediately so the suits may proceed.

Simultaneously with those at Homestead Superintendent Dillon of the Thirty-third street mills acknowledged the truth of the statement this afternoon.

Terrific Hall Storm.

ST. PAUL, October 1.—Between 2:30 and 3 o'clock this afternoon a terrific hall storm visited this city, doing much damage to vegetation and buildings. The hall stones were fully an inch in diameter and many pedestrians were injured before they found shelter. For half an hour business was suspended all over the city, travel on the streets being perilous and almost impossible, while pelting hail prevented indoor labors. Trees were almost denuded of leaves and a great number of window lights were broken. Telephone wires were badly damaged. Lightning struck in several parts of the city, but did little damage.

Wall Released.

VANCOUVER, B. C., October 1.—H. B. Wall, Secretary and Treasurer of the Ainslee Lumber Company of Portland was arrested to-day, but was soon released on instructions from Sheriff Kelly of Portland. Other officers of the company have been arrested and Wall says, acting on legal advice, he had come from Boston to answer any charges that may be made.

A Raging Prairie Fire.

FARGO, N. D., October 1.—Passengers arriving from the West over the Northern Pacific report a terrible prairie fire raging west of the Missouri river. The fire is 15 miles wide and 20 miles long and, men and cattle had to flee for their lives, as a stiff breeze is driving the flames at a fast rate.

Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy the Hood's instead of Hood's. He told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it. Mrs. K. A. Gorr, 61 Terrace Street, Boston.

HARRISON ANTI-SILVER CONVENTION.

About Sixty Delegates in Attendance—Good Men but Bad Principles.

The Harrison Republican County Convention met yesterday in the Opera House, about sixty of the ninety delegates entitled to seats being present. Chairman Emmett of the Central Committee called the meeting to order, and M. D. Foley was elected Temporary Chairman. Mr. Foley accepted the position, which, from the tenor of his remarks, he considered one of the most dangerous acts of his life. He declared it was as much as a man's life was worth at the present time to say that he was a straight-out, true-blue Republican and in favor of Harrison. This fear on the part of Mr. Foley probably accounts for the fact that he has repeatedly declared himself against Harrison. He said a true Republican appeared to be as much out of place at the present time in this State as a Chikanan in a Miners' Union boarding house, which every real friend of silver conceded should be the fact, as a true Republican of the Harrison stripe is a pronounced govt. and such should be out of place in Nevada.

H. W. Higgins was elected Temporary Secretary and N. C. Hammettsmith, Sergeant-at-Arms.

The following committees were elected by acclamation:

Committee on Permanent Organization and Order of Business—H. L. Field, Wm. H. Young, A. G. Fletcher, James Mayberry, C. J. Lewis, Tom Pixley and John Fraser.
Committee on Platform and Resolutions—S. A. Hamlin, Dr. Patterson, E. W. Harris, George F. Turritin, M. D. Foley, J. F. Emmett and Wm. M. Boardman.
Committee on Credentials—Seymour Bryant, B. M. Coffin, C. Lonkey, Wm. Donaldson, Henry Stevens and E. C. Leadbetter.

The convention was then adjourned until 2 P. M.

AFTERNOON SESSION.

At 2 o'clock Hoskins' band called the attention of the people to the fact that the convention was about to re-open, but it was nearly 3 before Chairman Foley called the delegates to order.

L. J. Cohn was elected Assistant Secretary, and the Chairman called for the report of the Committee on Credentials. Chairman Bryant read the report.

It was recommended by the committee that the names of Wm. Thompson and Jerry Corresco be added to the Reno delegation and that of O. Evans be stricken from the list.

The following gentlemen were reported as being entitled to seats:
Reno—S. J. Bryant, L. J. Cohn, B. M. Coffin, Henry Stevens, C. Louden, Wm. Donaldson, E. C. Leadbetter, S. K. Barber, John Belz, C. C. Chase, A. A. Evans, D. Churchill, Louis Dean, J. F. Browns—A. G. Brown (Jas. Burke proxy), Jas. Burke, Jas. Husb, Chas. Davenport, S. J. Bryant.

Before the report was adopted Mr. Thompson arose and stated his political position. As he concluded his remarks A. Steele of Wadsworth asked the Chairman to put the question to Mr. Thompson as to whether he intended to support Stewart or Bartine, but the Chair declined to do so. The report was adopted.

The report of the Committee on Permanent Organization and Order of Business was next read, which recommended that the temporary officers be made permanent.

S. A. Hamlin Chairman of the Committee on Platform and Resolutions read the report which was as follows:

The Republican party of Washoe county, Nevada, in convention assembled, reasserts its faith in the cardinal principles in the National Republican party. It submits its history in the past as the best evidence that through the means of its organization and agency alone can wise, beneficent and progressive legislation be secured. We recognize the impossibility of any National party being in full harmony with every local sentiment or State interest throughout the whole United States. We are unequivocally in favor of gold and silver on money upon equal terms as to coinage and legal tender, at the present ratio of 16 to 1. We believe that the Republican party, which is ever progressive in its views, and which is governed by the principles of justice to all classes, and all interests can be safely relied upon to restore silver whenever we shall succeed in convincing a majority of the American people that such action will be wise and beneficial. We be-

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

Leave that the attempt to divide the Republican party of this State upon the silver question, concerning which there is no diversity of opinion, has a stronger motive in individual desire for political success and personal advancement than the permanent welfare of the party, silver or the State.

That we emphatically condemn as un-Republican and un-American the deliberate and persistent attempt made in this State during the present campaign to strangle all expression at the polls, of political opinion not in conformity with the will of certain manipulators, whose aims are not always in the interests of our people.

We especially endorse the policy of the present Administration in preserving the duty on wool, for its liberal treatment of our people in the matter of mail routes and for its complete reopening of the Carson Mint, all of which stands in marked contrast to the policy of President Cleveland's Administration.

The Republicans of Washoe county heartily endorse the action of the last Legislature in passing the bill to encourage the construction of the Utah and Nevada Air Line Railroad, and hereby instruct its legislative delegation to sustain that law. The construction of another railroad through the State is, we believe, an absolute necessity, to aid in the prosperity and development of the State, and we are opposed to any man for office who is hostile to the building of such railroad.

We pledge the nominees of this convention to an honest and economical administration to the county government.

As the question was being put on the adoption of the report, B. L. Fulton presented a resolution which he asked to be added to the platform. In explaining his resolution Mr. Fulton said that if this was a Republican convention it should support in its entirety the Administration of President Harrison. That the trouble with the party has always been that it did not abide by the principle enunciated in the National platform. The resolution was as follows:

"We commend the financial policy of President Harrison as being far better for Nevada than that of either Cleveland, Weaver or Bidwell. He has used the surplus in the National Treasury to stop millions of dollars of annual interest and sent the dollars dancing through the channels of trade instead of keeping it as a standing menace to business and a monument of administrative incompetency."

"He has increased the currency of the country by the use of over a hundred millions of dollars worth of silver, a sum far in excess of the amount ever put into circulation by any previous administration."

"He has led the powers into an International Monetary Commission for the purpose of putting the financial system of the civilized world upon a scientific common sense basis, thus removing the circulating medium from the grasp of the gamblers and sharpers for the first time in history. In contrast to Cleveland and Bidwell, who favor gold alone, and Weaver, who favors greenbacks, depreciated silver or any other bad that chances to be fashionable. President Harrison and the Republican party favors the use of both gold and silver as money and are pledged to the policy of maintaining both as standard and equal."

Upon a vote being taken upon the adding of the resolution the motion was lost and the report adopted as submitted by the committee.

NOMINATIONS.

Nominations for Assemblymen were then declared in order. Judge Boardman placed J. F. Emmett, D. C. Wheeler and S. A. Hamlin in nomination, and A. Steele named Thomas Herman of Wadsworth. The four gentlemen were unanimously nominated.

For Sheriff—J. F. Emmett placed W. H. Coughlin in nomination, and he was unanimously declared the nominee.

Commissioner, long term.—T. K. Hyman, present incumbent, was named by Judge Young, and he was chosen by acclamation, there being no other nominations. Commissioners, short term.—Wm. Pearson, J. F. Condon and H. M. Frost were placed in nomination.

C. Lonkey and W. D. Phillips were appointed as tellers.

It required four ballots to make the choice for short term Commissioner.

The first stood: Pearson 28, Condon 31 and Frost 25; the second: Pearson 27, Condon 28, Frost 30; third: Pearson 24, Condon 25, Frost 37; fourth: Pearson 17, Condon 15, Frost 50.

Mr. Frost having received a majority of all votes cast, was declared the nominee. County Clerk—A motion was made to pass the nomination of County Clerk, when J. F. Emmett arose and said it was un-Republican to pass any nomination when there were candidates in the Convention desirous and anxious of being named, and

asked Mr. Field to withdraw his motion to pass the nomination, but the latter refused to do so. The question to pass was put to the convention and lost, whereupon Mr. Emmett placed the name of W. A. Fogg before the convention, and he was nominated by acclamation.

District Attorney.—After the Chairman had stated three or four times that nominations were now in order for the office of District Attorney, Wm. Thompson placed Judge Boardman in nomination, but the latter, in a very pathetic speech, which gained for him the sympathy of the entire congregation, declined the honor, and it was decided to leave the matter with the County Central Committee.

Recorder.—W. H. Young and Ward McNeilly were placed in nomination, and upon a vote being taken, Ward McNeilly received 54 and Judge Young 24. Mr. McNeilly was declared the nominee.

Treasurer.—A. A. Evans was nominated by acclamation.

Surveyor.—F. L. Gould and H. B. Maxon were named. Mr. Gould received 70 votes and Mr. Maxon 10 and the former was declared the nominee.

Coroner.—J. V. Peers was nominated by acclamation.

A County Central Committee was then elected as follows:

Reno.—M. D. Foley, W. H. Young, B. M. Coffin, J. A. Lewis, L. J. Cohn, E. C. Leadbetter, W. H. Patterson, Jas. Mayberry and L. Della Piazza.

Glendale.—B. Stevens.

Verdi.—J. J. Nicholson, W. H. Cobb.

Wadsworth.—A. T. Lathrop, N. A. Hummel.

Franktown.—Jerry Corresco.

Washoe.—E. W. Harris.

Browns.—J. Burke.

Incline.—A. Spencer.

Pyramid.—Jas. Soliffo.

Dr. Patterson was called upon and addressed the convention.

TOWNSHIP OFFICERS.

Constable.—W. H. McInnis.

Justice of the Peace.—J. J. Linn.

The nomination of School Trustees was left with the members of the Central Committee of this precinct.

Phenomenal Growth of an Excellent Order.
The Sovereign Grand Lodge of the I. O. O. F. recently in session at Portland, Oregon, furnished the following statistics of the Order:

The first Lodge, known as Washington Lodge, No. 1, was founded in 1819, in Baltimore. From 1830 to 1892, 2,000,000 members were initiated. The year 1891 shows the largest gain in membership in the Order's history—48,807. The membership in good standing on January 1st last, was 731,145, and including the membership of Rebekah Degree Lodges, reached the enormous total of 802,881.

Still Growing.
A glance at the map of Powning's Addition shows that with but very few exceptions all of the most eligible lots have been sold. Along the entire river front, or Riverside Avenue, there are only three corners left, while on Second street there are but four that are not sold. People wonder how it happens, but Reno keeps on growing just the same, and those who are still hunting bargains should buy a lot in Powning's Addition while lots are yet reasonable.

COME! "August Flower"

My sweetheart! my darling! you darkened all the day. When from my silent dwelling your footsteps turned. The moon was dark as midnight, the noonday sad as dawn. The milk white daisies drooped their heads along the dewy lawn. My darling! my dearest! I sought the garden round. But never in a blossom your precious face I found; No rose was red beside your lips, no lily like your throat. No sound or thrilling of your voice in any thrush's note. Ah! What is like your eyes, dear? Gray sparkles of the sea. So clear and crystal shining their beryl glances. And where is any flower of all that may compare With the softly dancing glitter of the sunshine in your hair. Alone through lingering daytime I listen for your feet. Those springing steps no longer along the path-way beat; I hear the dewdrops rustle in the branches overhead. But home and you together for many a day have fled. My life is sad and weary, too dark with want and pain. But your dear eyes would bring its light and gladness back again; My soul is tired of desert sands, bereft of cheer and balm. For you were like the diamond spring beneath its lonely palm. Come back, come back, my darling! Across the spaces heart. Come light this night of grief and gloom, my dearest! Healer shining clear: Not long have I to linger, not long to call or cry; Come back my treasure come, my heart, and bless me ere I die! —Rose Terry Cooke in New York Independent.

Proposing Under Difficulties.

An English writer tells an amusing story of a country house where a regular daily routine is observed, and where no chance is given one of breaking the monotony. It is of a man who wanted to stay in a country house, thinking it would give him the opportunity of proposing to a girl with whom he had been in love for a long time. His visit was a fortnight, but the last evening came without his having the one chance of being alone with her during the whole time. As he sat at dinner (of course he was at the opposite end of the table where she was) he felt the time was fast passing away, and in a few hours he would no longer be in the same house with her.

When the ladies went to the drawing room he would have to sit on in the dining room. His host might allow him to look in at the drawing room for a few minutes that evening, but after that his presence would be required in the billiard room. In utter desperation he took up the menu card and on it wrote, "Will you marry me?" He doubled it up, telling the butler to give it to the lady in question. He did so. She read it and with the perfect sang froid born only of the Nineteenth century said, "Tell the gentleman 'Yes.'"

Big Lamps. Among the larger members of the lamp family a Turkish lamp more than half as large as a four barrel is the most conspicuous. Its top and bottom consist of copper and the body is of linen, after the style of the ordinary Chinese lantern. Next in size to this is a Japanese "night lamp," used for all night burning in the Japanese house. It is a square wooden frame nearly four feet high, with sliding frames on two sides, covered with white paper. The other sides, to within ten inches of the bottom, are also paper covered. A transverse board half way up this light tower holds a brass saucer, in which is burned "brass oil" with wicks of rush. —Mechanical News.

To Preserve Milk. There are many ways of preserving milk so as to keep it sweet, but one of the most satisfactory is that which is at present practiced at an establishment in Texas. The milk, fresh from the cow, is subjected to a boiling heat, and after the air has been expelled from it the cans are hermetically sealed. When the process was first invented, about fifteen years ago, several dozen bottles were sealed up. Every year some of these opened, and after fifteen years' keeping the milk has in every case been found perfectly fresh. —St. Paul Pioneer Press.

The Reason for It. "If cigarettes cause insanity, why don't more young men go crazy?" asks a correspondent. That is an easy one. Brains are a prime requisite to an attack of insanity. That's why more cigarette smokers don't go to asylums. —Pomona Progress.

It is an interesting fact that out of sixteen cities of over 200,000 population in the United States, fourteen, or over 87 per cent., are using the electrical railway system or equipping roads with the system.

Serpents together constitute one order of the class of reptiles, the other still existing members of that class constituting three other plainly distinct orders, namely, crocodiles, lizards, tortoises.

You've tried Dr. Pierce's Favorite Prescription have you and you're disappointed. The results are not immediate. And did you expect the disease of years to disappear in a week? Put a pinch of time in every dose. You would not call the milk poor because the cream doesn't rise in an hour? If there's no water in it the cream is sure to rise. If there's a possible cure, Dr. Pierce's Favorite Prescription is sure to effect it, if given a fair trial. You get the one dollar it costs back again if it doesn't benefit or cure you. We wish we could give you the makers' confidence. They show it by giving the money back again, in all cases not benefited, and it's surprise you to know how few dollars are needed to keep up the refund.

"August Flower"

How does he feel?—He feels blue, a deep, dark, unfading, dyed-in-the-wool, eternal blue, and he makes everybody feel the same way.—August Flower the Remedy.

How does he feel?—He feels a headache, generally dull and constant, but sometimes excruciating.—August Flower the Remedy.

How does he feel?—He feels a violent hiccupping or jumping of the stomach after a meal, raising bitter-tasting matter or what he has eaten or drunk.—August Flower the Remedy.

How does he feel?—He feels the gradual decay of vital power; he feels miserable, melancholy, hopeless, and longs for death and peace.—August Flower the Remedy.

How does he feel?—He feels so full after eating a meal that he can hardly walk.—August Flower the Remedy.

offer advice unsought, but perhaps a few words may not come amiss. Of course I presume you are a woman—no man would take the pains to read what a woman has to say upon these momentous subjects—so I will say the first of all things you must do, if you wish to keep cool, is to disregard banga. Yes, banga are heating, inasmuch as they are a source of constant anxiety when nature has not made them of a curly inclination, and the worry caused by the thought that they are so straight as broomsticks is enough to make some women get into a perfect fever.

"Let the thought of banga be brushed from your mind, forget that new fashions exist and wear the coolest clothes you have, whether they are out of date or not. Be lazy, and in no special hurry to accomplish anything. Forget that time does not wait for you, and do nothing except what is necessary. Eat sparingly and sleep all you can if you would know the meaning of rest."

Beware of Summer Colds. "Beware of summer colds," warns a physician; "city people are likely to be careless how their feet are shod for country walking, the damp earth one finds in village walks necessitates for the feet more protection than do stone pavements, and thin shoes and slippers are not suitable footwear. A summer cold is peculiarly obstinate because of the opportunities for rapid changes of temperature. Mornings and evenings cool, with hot days, need attention to clothing. I think nothing so safe as fine wool underwear all the year around, and I make all my patients wear it who will. Cotton is too good a conductor of heat. The moment the surrounding air becomes cooler than the skin, as it often will when the dew falls or after a sudden rainstorm, it steals heat from the body which is needed. A fresh supply must be had, and this taxation of the system in a delicate person, or even in a strong one, sometimes brings about a local congestion or 'cold,' all of which might have been prevented with woolen underclothing, however light and fine."
